

## JL 1312 18 Motorcycle Iron Rear Disc Brake For BAJAJ PULSAR NS200

Our Product Introduction

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: WAY-C
- Model Number: BAJAJ PULSAR NS200
- Minimum Order Quantity: 200 pieces
- Price: \$2.00/pieces 200-990 pieces
- Packaging Details: NYLON+CARTON
- Delivery Time: 30-45days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 20000 Piece/Pieces per Month

### Product Specification

- Model: BAJAJ PULSAR NS200
- Product Name: Motorcycle Rear Disc
- MOQ: 200PCS
- Material: Iron
- Quality: High Qaulity
- Shipping: Sea Transport.Air Transport Air Express
- Port: NANSHA/HUANGPU, GUANGZHOU
- Parts NO: JL 1312 18
- Highlight: Motorcycle Rear Disc Brake, Iron Rear Disc Brake

## Product Description

### JL 1312 18 Parts Motorcycle Rear Disc for BAJAJ PULSAR NS200

#### Products Description

Product name	Motorcycle Rear Disc
Model	BAJAJ PULSAR NS200
Materials	Alloy
Parts NO	JL 1312 18
Packing	Box
Shipping	Sea/Air
Place of origin	Guangzhou,China

The rear disc for the Bajaj Pulsar NS200 motorcycle is a key component. The Bajaj Pulsar NS200 is a popular motorcycle model manufactured by Bajaj Auto, an Indian automobile company. Here is some information about the rear disc for the Bajaj Pulsar NS200:

**Function:** The rear disc brake is an essential part of the motorcycle's braking system. It is responsible for providing stopping power to the rear wheel by applying friction on the disc rotor. When the rider applies the brake lever or pedal, the brake caliper clamps down on the disc rotor, causing the motorcycle to slow down or come to a stop.

**Design and Construction:** The rear disc brake system consists of several components, including the disc rotor, brake caliper, brake pads, and associated hardware. The disc rotor is typically made of high-quality steel and is designed to withstand the heat and forces generated during braking. The brake caliper houses the brake pads and is responsible for clamping them onto the disc rotor.

**Performance and Maintenance:** The rear disc brake provides improved braking performance compared to traditional drum brakes. It offers better heat dissipation, consistent braking performance, and reduced fade during prolonged or heavy braking. Regular maintenance, such as checking the brake pads for wear and replacing them when necessary, is important to ensure optimal braking performance and safety.

**Replacement and Upgrades:** If the rear disc brake components, such as the disc rotor or brake pads, show signs of wear, damage, or decreased performance, they may need to be replaced. When replacing the rear disc, it is recommended to use genuine Bajaj parts or high-quality aftermarket options that are compatible with the Bajaj Pulsar NS200 model.

To obtain a rear disc for your Bajaj Pulsar NS200, it is advisable to contact authorized Bajaj Auto dealerships or reputable motorcycle parts suppliers. They can provide you with the appropriate rear disc that is compatible with your specific Bajaj Pulsar NS200 model.
