

## N9325310 Alloy Moto Engine Piston Kit For TVS APACHE RTR 200 4V

Our Product Introduction

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: WAY-C
- Model Number: TVS APACHE RTR 200 4V
- Minimum Order Quantity: 200 pieces
- Price: \$5.00/pieces 200-990 pieces
- Packaging Details: Box+CARTON
- Delivery Time: 30-45days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 20000 Piece/Pieces per Month

### Product Specification

- Model: TVS APACHE RTR 200 4V
- Product Name: Piston Kit
- MOQ: 200PCS
- Material: Alloy
- Quality: High Qaulity
- Shipping: Sea Transport.Air Transport Air Express
- Port: NANSHA/HUANGPU, GUANGZHOU
- Parts NO: N9325310
- Highlight: Moto Engine Piston Kit, Alloy Engine Piston Kit

## N9325310 Motorcycle Piston Ring Piston Kit For TVS APACHE RTR 200 4V

Product name	Piston kit
Model	TVS APACHE RTR 200 4V
Materials	Alloy
Parts NO	N9325310
Packing	Box
Shipping	Sea/Air
Place of origin	Guangzhou,China

Piston rings are annular parts installed on the piston, usually made of steel or cast iron. The main function of the piston ring is to seal the gap between the piston and the cylinder wall to prevent the high-pressure gas in the combustion chamber from leaking into the crankcase, and also to prevent the lubricating oil in the crankcase from entering the combustion chamber.

Usually, there are two or three ring grooves on the piston, which are used to install the upper and lower piston rings respectively. Among them, the upper piston ring is usually an oil ring, which is used to control the supply and retention of lubricating oil. The lower and middle piston rings (if present) are used to seal the cylinder and provide good compression.

Piston rings are subjected to high temperature and high pressure environments during engine operation, so they need to have wear resistance, high temperature resistance and good sealing properties. As a motorcycle gets more use and mileage, piston rings can wear out or fail, causing problems such as compression blow-by, fuel entering the crankcase, or increased fuel consumption. Therefore, regular inspection and replacement of piston rings is an important step in maintaining proper engine operation and performance.

## Why Choose Us

### OUR ADVANTAGES

GUANGZHOU WAY-C TRADING CO.,LTD.

## Why choose us?

- ◆ 1. High quality: Using high quality material and establishing a strict quality control system, assigning specific persons in charge of each part of production, from raw material purchase to assembly.
- ◆ 2. Professional models for motorcycle parts and three wheeler parts, we have one group to focus on the new models parts, so welcome to OEM and ODM orders
- ◆ 3. Fast dispatch: Most of the products are in stock. Quality below 100pcs can be delivered within 15 days.
- ◆ 4. Small order accepted: Low MOQ accepted. 50pcs are available.
