## Product Description

### G5220140 Tricycle TUKTUK KEKE TAXI Windshield Glass for TVS KING

#### Products Description

Product name	Windshield Glass
Model	TVS KING
Materials	Glass
Parts NO	OEM
Packing	Box
Shipping	Sea/Air
Place of origin	Guangzhou,China

A tricycle windshield is a glass panel mounted on the front of a tricycle to protect the driver and passengers from wind, rain, and other external objects. It provides a transparent view allowing the driver to observe the road and traffic conditions.

**Material:** Tricycle windshields are usually made of tempered glass or laminated glass. Tempered glass has higher impact resistance and heat resistance, while laminated glass consists of a plastic film sandwiched between two layers of glass, providing better safety and sound insulation properties.

**Installation method:** The windshield is installed on the glass bracket at the front of the TVS KING tricycle frame, usually fixed with bolts or clamps. Make sure the windshield is securely fastened.

**Maintenance and Cleaning:** Regular cleaning and maintenance of your windshield ensures its transparency and good visibility. Use an appropriate cleaner and a soft cloth to clean your windshield, and regularly inspect and replace worn wipers.

**Safety Precautions:** When driving a tricycle, you should always keep the windshield clean and have good visibility. Avoid pasting or placing obstructions on the windshield so as not to affect the view. In the event of a serious collision or damage, the damaged windshield should be replaced promptly.
