**WAY-C**

HAOJUE XPRESS motorcycle handlebar switch is a control switch device installed on the handlebar of a motorcycle and is used to control various electrical functions and systems.

The motorcycle left handlebar switch is a set of control switch devices installed on the left handlebar of the motorcycle. It is used to control various electrical functions and systems: turn signal switch, high beam switch, light flash switch, clutch switch, starter switch, emergency warning light switch.

The right-hand handlebar switch of a motorcycle is a set of control switch devices installed on the right handlebar of the motorcycle and is used to control various electrical functions and systems. The following are some common motorcycle right-hand handlebar switches: throttle control, front brake switch, rear brake switch.
