Model	Universal
Materials	Oxford Fabric
Parts NO	OEM
Packing	Box
Shipping	Sea/Air
Place of origin	Guangzhou,China

A motorcycle cover is a covering used to protect motorcycles. It is made of Oxford cloth waterproof material and can cover the entire motorcycle.

The main function of a motorcycle cover is to protect the motorcycle from harsh weather, dust, UV rays and other external factors, thus extending the life of the motorcycle and keeping its appearance in good condition.

Motorcycle covers have the following features:

Waterproof performance: The material of the motorcycle cover is usually waterproof, which can effectively prevent rainwater from penetrating into the interior of the motorcycle.

Durability: The material of your motorcycle cover needs to be wear and tear resistant to handle the scratches and tears you may encounter during daily use.

Breathability: A good motorcycle cover should be breathable to prevent moisture from accumulating inside the cover, which can cause mold and odors.

Lightweight and easy to carry: Some motorcycle covers are designed to be foldable or stowable for easy portability and storage.
