## Product Description

### R1060110 Motorcycle Clutch Starter One Way for TVS Apache RTR

#### Products Description

Product name	Motorcycle Clutch Starter One Way
Model	TVS Apache RTR
Materials	Iron
Parts NO	R1060110
Packing	Box
Shipping	Sea/Air
Place of origin	Guangzhou,China

The combination of "Motorcycle Clutch Starter One Way" suggests the presence of a specific type of one-way clutch mechanism within the motorcycle's starting system. This component allows the starter motor to engage with the engine to start it, but it prevents the engine's rotational force from being transmitted back to the starter motor once the engine is running. This prevents the starter motor from continuing to spin unnecessarily and potentially getting damaged.

One Way: In the context of a motorcycle starter, "one way" typically refers to a one-way clutch or sprag clutch. It is a mechanical device that allows rotation in one direction while preventing rotation in the opposite direction. In this case, the one-way clutch is integrated into the starter system.
