Model	Universal
Materials	LED
Parts NO	OEM
Packing	Box
Shipping	Sea/Air
Place of origin	Guangzhou,China

Two-sided

Trihedral

Motorcycle modified LED bulb refers to an aftermarket LED bulb that is installed in place of the original halogen or incandescent bulb in a motorcycle's lighting system. LED bulbs have gained popularity among motorcycle riders due to their numerous advantages over traditional bulbs.

LED bulbs offer several benefits compared to incandescent or halogen bulbs, LED bulbs are highly energy-efficient, meaning they produce more light output per unit of electrical power consumed. This can help reduce the load on the motorcycle's electrical system and improve fuel efficiency.
