## Product Description

### ED33454 Motorcycle Engine Valve kit Inlet Exhaust Val for PIAGGIO APE

#### Products Description

Product name	Motorcycle Engine Valve kit
Model	PIAGGIO APE
Materials	Alloy
Parts NO	ED33454
Packing	Box
Shipping	Sea/Air
Place of origin	Guangzhou,China

Motorcycle engine valve kit typically refers to a set of components that includes intake valves, exhaust valves, valve springs, valve retainers, valve keepers, and valve seals. These components are essential for the proper functioning of the engine's intake and exhaust processes.

**Intake Valves:** Intake valves are responsible for allowing the intake of fresh air and fuel mixture into the combustion chamber.

**Exhaust Valves:** Exhaust valves are responsible for expelling the burned exhaust gases from the combustion chamber.

**Valve Springs:** Valve springs are essential for controlling the opening and closing of the valves.

**Valve Retainers:** Valve retainers are small metal components that hold the valve springs in place.

**Valve Keepers (or Valve Locks):** Valve keepers, also known as valve locks or valve cotters, are small clips or wedges that secure the valve retainers in place.

**Valve Seals:** Valve seals are small rubber or silicone components that fit around the valve stems.
