## M7081640 Gear Change Mechanism Alloy Motorcycle Gear Lever Shift Levers

Our Product Introduction

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: WAY-C
- Model Number: TVS APACHE RTR
- Minimum Order Quantity: 200 pieces
- Price: \$4.00/pieces 200-990 pieces
- Packaging Details: Box+CARTON
- Delivery Time: 30-45days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 10000 Piece/Pieces per Month

### Product Specification

- Model: TVS APACHE RTR
- Product Name: Motorcycle Gear Lever
- MOQ: 200PCS
- Material: Alloy
- Quality: High Quality
- Shipping: Sea Transport.Air Transport Air Express
- Port: NANSHA/HUANGPU, GUANGZHOU
- Parts NO: M7081640
- Highlight: **M7081640 Gear Change Mechanism, Gear Change Mechanism Alloy**

## Product Description

### M7081640 Motorcycle Gear Lever Shift Levers for TVS APACHE RTR

#### Products Description

Product name	Motorcycle Gear Lever
Model	TVS APACHE RTR
Materials	Alloy
Parts NO	M7081640
Packing	Box
Shipping	Sea/Air
Place of origin	Guangzhou,China

**WAY-C**

TVS APACHE RTR motorcycle gear lever, also known as the shift lever or gear shifter, is a component that allows the rider to change gears on a motorcycle equipped with a manual transmission. It is typically located on the left side of the motorcycle's engine and is operated by the rider's left foot.

The gear lever is attached to a shift shaft that extends into the motorcycle's transmission. When the rider uses their foot to shift gears, the gear lever translates the input into a rotational movement of the shift shaft, which in turn engages different gears within the transmission.

The gear lever is usually designed with a folding or pivoting mechanism. This allows it to move up and down smoothly, even if the motorcycle leans during cornering or in the event of contact with the ground. The folding or pivoting feature helps prevent damage to the gear lever or transmission in case of a fall or impact.
