Product Description

N9011570 Motorcycle Moto Timing Chain Camchain for TVS APACHE RTR 200 4V

Products Description

Product name	Camchain
Model	TVS APACHE RTR 200 4V
Materials	Alloy
Parts NO	N9011570
Packing	Box
Shipping	Sea/Air
Place of origin	Guangzhou,China

WAY-C

Motorcycle camchain, also known as a timing chain, is an integral component of an engine's valve train system. Its purpose is to synchronize the rotation of the crankshaft and the camshaft(s) in an internal combustion engine.

The camchain is responsible for controlling the opening and closing of the engine's intake and exhaust valves at the correct times. This is crucial for the engine to operate efficiently and generate power. The camshaft(s) are driven by the crankshaft through the camchain, ensuring that the valves open and close at the precise moments in the engine's combustion cycle.
