Product Description

N5010860 Motorcycle Moto Camshaft Cam Shaft for TVS STAR HLX

Products Description

Product name	Camshaft
Model	TVS STAR HLX
Materials	Alloy
Parts NO	N5010860
Packing	Box
Shipping	Sea/Air
Place of origin	Guangzhou,China

The camshaft in a motorcycle is a critical component of the engine's valve train system. It is responsible for controlling the opening and closing of the intake and exhaust valves in synchronization with the engine's combustion cycle.

The camshaft is typically located within the engine block and is driven by the crankshaft through a timing chain or timing belt. As the camshaft rotates, it operates the cam lobes or cams, which are specially shaped protrusions on the shaft. These cam lobes press against the valve lifters or followers, causing the valves to open and close at the appropriate times.
