## Product Description

### G4060290 Tricycle TUKTUK Moto Regulator Rectifier for TVS KING

#### Products Description

Product name	Regulator
Model	TVS KING
Materials	Alloy
Parts NO	G4060290
Packing	Box
Shipping	Sea/Air
Place of origin	Guangzhou,China

The regulator in a tricycle is an electrical component that regulates the output voltage from the tricycle's charging system. Its primary function is to maintain a consistent and controlled voltage to the tricycle's electrical system and battery.

The regulator ensures that the voltage produced by the charging system does not exceed certain limits that could damage the electrical components or overcharge the battery. It achieves this by monitoring the electrical output and adjusting the field current in the charging system accordingly.
