54B-H1960-00 Moto Motorcycle Regulator Rectifier Alloy For YAMAHA FZ16

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: WAY-C
- Model Number: YAMAHA FZ16
- Minimum Order Quantity: 100 pieces
- Price: 4.00/pieces 100-990 pieces
- Packaging Details: Box+CARTON
- Delivery Time: 30-45days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 10000 Piece/Pieces per Month

Product Specification

- Model: YAMAHA FZ16
- Product Name: Regulator
- MOQ: 200PCS
- Material: Alloy
- Quality: High Quality
- Shipping: Sea Transport.Air Transport Air Express
- Port: NANSHA/HUANGPU, GUANGZHOU
- Parts NO: 54B-H1960-00
- Highlight: Motorcycle Regulator Rectifier Alloy,
54B-H1960-00 Motorcycle Regulator Rectifier

Product Description

54B-H1960-00 Motorcycle Moto Regulator Rectifier for YAMAHA FZ16

Products Description

Product name	Regulator
Model	YAMAHA FZ16
Materials	Alloy
Parts NO	54B-H1960-00
Packing	Box
Shipping	Sea/Air
Place of origin	Guangzhou,China

Motorcycle's rectifier (Rectifier) is an electrical component that converts alternating current (AC) into direct current (DC) and is used in the charging system to direct the current into the motorcycle's battery and electrical system. Rectifiers play an important role in motorcycle charging systems. When a motorcycle's engine is running, a charging system (usually an alternator or a combination of an alternator and a rectifier) generates alternating current. The task of the rectifier is to convert this alternating current into direct current and ensure that the voltage is stable within a certain range.

The main function of a motorcycle rectifier is to convert alternating current into direct current and guide the current generated by the charging system into the motorcycle's battery and electrical system by rectifying and stabilizing the current. Rectifiers also help ensure batteries are charged and provide stable power to electrical equipment. Rectifiers usually consist of silicon diodes or rectifier units, and these components play a key role in converting alternating current into direct current. The rectifier unit contains multiple diodes that convert alternating current into unidirectional direct current.

Why Choose Us

OUR ADVANTAGES

GUANGZHOU WAY-C TRADING CO.,LTD.

Why choose us?

- ◆ 1. High quality: Using high quality material and establishing a strict quality control system, assigning specific persons in charge of each part of production, from raw material purchase to assembly.
- ◆ 2. Professional models for motorcycle parts and three wheeler parts, we have one group to focus on the new models parts, so welcome to OEM and ODM orders
- ◆ 3. Fast dispatch: Most of the products are in stock. Quality below 100pcs can be delivered within 15 days.
- ◆ 4. Small order accepted: Low MOQ accepted. 50pcs are available.
