Model	BOXER BM150
Materials	Alloy
Parts NO	PF231405
Packing	Box
Shipping	Sea/Air
Place of origin	Guangzhou,China

WAY-C

Motorcycle rear rack, also known as a luggage rack or cargo rack, is a component designed to provide additional carrying capacity on the rear of a motorcycle. It is typically a metal framework that is mounted to the motorcycle's rear subframe or other designated mounting points.

The primary purpose of a rear rack is to allow riders to securely transport various types of luggage, such as bags, backpacks, or other items. The rack provides a flat or slotted surface where the luggage can be strapped or secured using bungee cords or other fastening systems.
