Product Description

N9090910 Motor Motorcycle Chain Adjuster for TVS STAR HLX

Products Description

Product name	Motorcycle Chain Adjuster
Model	TVS STAR HLX
Materials	Metal
Parts NO	N9090910
Packing	Box
Shipping	Sea/Air
Place of origin	Guangzhou,China

The motorcycle chain adjuster is a device or mechanism that allows for proper tensioning and adjustment of the motorcycle's chain. It is typically located on the swingarm, which is the part of the motorcycle's frame that connects the rear wheel to the main frame.

The chain adjuster serves two main purposes. First, it allows you to maintain the correct tension in the chain. A properly tensioned chain ensures efficient power transfer from the engine to the rear wheel. Second, it allows for adjustments to compensate for chain wear over time. Chains stretch and wear with use, so periodic adjustments are necessary to maintain optimal performance and prevent premature wear.
