The tricycle rear axle assembly refers to the components that make up the rear axle of a tricycle. The rear axle assembly plays a crucial role in providing support, stability, and power transmission to the tricycle's rear wheels. While the specific design and construction can vary depending on the tricycle model.

**Axle Shaft:** The axle shaft is a central component that connects the rear wheels of the tricycle. It is responsible for transmitting power from the engine or pedals to the rear wheels, allowing them to rotate.
