

## Universal Motorcycle Exhaust Pipe Carbonfiber Motorbike Muffler

Our Product Introduction

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: WAY-C
- Model Number: Universal
- Minimum Order Quantity: 50 pieces
- Price: \$15.00/pieces 200-990 pieces
- Packaging Details: Box+CARTON
- Delivery Time: 30-45days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 20000 Piece/Pieces per Month

### Product Specification

- Model: Universal
- Product Name: Exhaust Pipe Muffler
- MOQ: 50PCS
- Material: Carbonfiber
- Quality: High Qaulity
- Shipping: Sea Transport.Air Transport Air Express
- Port: NANSHA/HUANGPU, GUANGZHOU
- Parts NO: OEM
- Highlight: **Universal Motorcycle Exhaust Pipe,  
Carbonfiber Motorcycle Exhaust Pipe,  
Carbonfiber Motorbike Muffler**

## Product Description

### Universal Motorcycle Motorbike Exhaust Pipe Muffler Carbonfiber

#### Products Description

Product name	Motorcycle Muffler
Model	Universal
Materials	Metal
Parts NO	OEM
Packing	Box
Shipping	Sea/Air
Place of origin	Guangzhou,China

The motorcycle exhaust pipe is a pipe system through which the engine emits exhaust gas. It plays the role of discharging exhaust gas, improving engine performance and regulating emission noise.

**Function:** The main function of the motorcycle exhaust pipe is to discharge the exhaust gas produced after combustion from the engine and guide the exhaust gas into the atmosphere through the exhaust pipe system. At the same time, the exhaust pipe also muffles and controls exhaust gas to improve engine performance and reduce noise.

**Structure:** Motorcycle exhaust pipes usually consist of multiple parts, including the intake pipe, muffler (or muffler) and tail pipe. The intake pipe connects to the engine's exhaust port and directs the exhaust gases into the muffler. The muffler reduces exhaust gas noise through its internal sound insulation materials and design, and silences and controls exhaust gas through a series of pipe and cavity structures. The tailpipe is the end of the exhaust pipe that releases exhaust gases into the atmosphere.
