DK 1017 55 Motorcycle Rocker Arm BAJAJ PULSAR 180

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: WAY-C
- Model Number: PULSAR 180
- Minimum Order Quantity: 100 pieces
- Packaging Details: NYLON+CARTRON
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 20000 Piece/Pieces per Month

Product Specification

- Model: PULSAR 180
- Product Name: Rocker Arm
- MOQ: 200PCS
- Material: Iron
- Quality: High Qaulity
- Shipping: Sea Transport.Air Transport Air Express
- Port: NANSHA/HUANGPU, GUANGZHOU
- Parts NO: DK 1017 55
- Highlight: **BAJAJ PULSAR 180 Motorcycle Rocker Arm,
55 Motorcycle Rocker Arm,
DK 1017 Motorcycle Rocker Arm**

Product Description

DK 1017 55 Motorcycle Rocker Arm BAJAJ PULSAR 180

Product Description:

The DK 1017 55 Motorcycle Rocker Arm is a high-quality replacement part designed specifically for the Bajaj Pulsar 180. Engineered for precision and durability, this rocker arm ensures smooth engine operation by facilitating the proper opening and closing of the engine's valves. Constructed from premium materials, the DK 1017 55 is designed to withstand the rigors of high-performance motorcycle engines, providing excellent reliability and longevity.

Features:

Perfect Fitment: Designed specifically for the Bajaj Pulsar 180, this rocker arm provides an exact fit, ensuring seamless integration with your motorcycle's engine system.

High Durability: Made from high-strength materials, this rocker arm is resistant to wear and tear, offering long-lasting performance even under high stress.

Improved Engine Performance: The rocker arm plays a critical role in the valve timing mechanism, contributing to smoother operation and better engine efficiency.

Corrosion Resistant: Built to withstand harsh conditions, the rocker arm is resistant to corrosion, ensuring consistent performance in various environments.

Products Description

Product name	Rocker Arm
Model	PULSAR 180
Materials	Iron
Parts NO	DK 1017 55
Packing	Box
Shipping	Sea/Air
Place of origin	Guangzhou, China

The Bajaj Pulsar 180 motorcycle is equipped with rocker arms as part of its valve train mechanism. Rocker arms play a critical role in opening and closing the engine's valves.

Function: PULSAR 180 Rocker arms are responsible for transmitting the motion from the camshaft to the valves. They convert the rotational motion of the camshaft into linear motion to open and close the valves at the appropriate timing.

Design: PULSAR 180 Rocker arms are typically metal components with a pivoting point in the middle. One end of the rocker arm is in contact with the camshaft, while the other end is in contact with the valve stem. As the camshaft rotates, it pushes the rocker arm, which, in turn, pushes the valve down to open it. When the camshaft lobe moves away, the rocker arm returns to its original position, allowing the valve to close.

Material and Manufacturing: PULSAR 180 Rocker arms are commonly made of steel or aluminum alloys to withstand the stresses and high temperatures within the engine. The manufacturing process involves precision machining to ensure proper fit and function.

Maintenance: Proper maintenance of rocker arms is essential for optimal engine performance. This includes regular inspection for wear or damage, ensuring proper lubrication, and adjusting valve clearances if necessary.

Why Choose Us

Why choose us?

- ◆ 1. High quality: Using high quality material and establishing a strict quality control system, assigning specific persons in charge of each part of production, from raw material purchase to assembly.
- ◆ 2. Professional models for motorcycle parts and three wheeler parts , we have one group to focus on the new models parts , so welcome to OEM and ODM orders
- ◆ 3. Fast dispatch: Most of the products are in stock. Quality below 100pcs can be delivered within 15 days.
- ◆ 4. Small order accepted: Low MOQ accepted. 50pcs are available.
