Product Description

G4020110 Tricycle TUKTUK TVS KING Piston Piston Ring

Products Description

The G4020110 Piston and Piston Ring set is a critical component for Tricycle TUKTUK TVS KING, ensuring optimal engine performance.

The piston is crafted from high - quality aluminum alloy, offering a perfect balance of light weight and durability. This reduces the engine's reciprocating mass, enhancing fuel efficiency and power output. The piston rings, made of resilient cast iron, provide an excellent seal between the piston and the cylinder wall, preventing gas leakage and ensuring efficient combustion.

During production, the piston is first forged to achieve its basic shape, enhancing material strength. Then, it undergoes precision machining to meet tight tolerances. Piston rings are formed by casting, followed by grinding and lapping processes to ensure a proper fit and consistent sealing performance. Rigorous quality checks are carried out at every step to guarantee top - notch quality for reliable engine operation.

The G4020110 TUKTUK TVS KING Tricycle is known for its powerful engine and exhilarating performance. To optimize the engine's performance and ensure its longevity, choosing the right TUKTUK piston kit is crucial. At WAY-C, we offer high-quality piston kits specifically designed for the G5020110 TVS KING model.

Our Tricycle piston kits are precision-engineered to deliver exceptional performance and reliability. Crafted from premium materials, they are designed to withstand the demanding conditions of tricycle riding. By upgrading to our piston kit, you can experience improved power output, enhanced fuel efficiency, and a smoother running engine.

One of the key advantages of our piston kits is their precise fit and compatibility with the TUKTUK TVS KING Tricycle model. They are designed as direct replacements for the original equipment manufacturer (OEM G4020110) parts, ensuring a seamless installation process. Our piston kits are specifically designed to match the specification.
