Product Description

JE531000 Motorcycle Crank Shaft Assy Crankshaft BAJAJ PULSAR135

Products Description

The JE531000 Motorcycle Crank Shaft Assy is a high-quality crankshaft assembly designed specifically for the Bajaj Pulsar 135. Built with precision engineering and top-grade materials, this crankshaft ensures smooth and efficient engine performance. As a crucial component of the engine, it plays an essential role in converting the linear motion of the pistons into rotational motion, ultimately driving the motorcycle's wheels. The assembly is engineered for durability, providing reliable service under demanding conditions.

Features:

High-Quality Material: Manufactured from durable steel, the crankshaft is resistant to wear and can withstand high temperatures and pressures.

Precision Engineering: Every crankshaft is precision machined to ensure smooth rotation and optimal engine balance, reducing vibration and improving performance.

Enhanced Durability: Designed to handle heavy workloads, this crankshaft offers superior resistance to fatigue and extends the lifespan of the engine.

Easy Installation: The crankshaft assembly is engineered for a perfect fit, ensuring straightforward installation and reducing downtime during maintenance.

Applications: The JE531000 Crank Shaft Assy is specifically designed for the Bajaj Pulsar 135, offering seamless compatibility and enhancing the engine's power output and efficiency. Ideal for both daily commuting and longer rides, this crankshaft ensures smooth operation and improved engine performance, contributing to a more reliable and fuel-efficient motorcycle.
