WAY-C Parts TVS APACHE Accessoires Tensioner Guide Chain Tensioner M1080990/M1010250

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: WAY-C
- Model Number: TVS APACHE
- Minimum Order Quantity: 500 pieces
- Packaging Details: Box+CARTON
- Delivery Time: 30-45days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 10000 Piece/Pieces per Month

Product Specification

- Model: TVS APACHE
- Product Name: Tensioner
- MOQ: 500PCS
- Material: Alloy
- Quality: High Quality
- Shipping: Sea Transport.Air Transport Air Express
- Port: NANSHA/HUANGPU, GUANGZHOU
- Parts NO: M1080990/M1010250
- Highlight: TVS APACHE Accessoires Tensioner, M1080990/M1010250 Chain Tensioner

Product Description

WAY-C Parts TVS APACHE Accessoires Tensioner Guide Chain Tensioner M1080990/M1010250

Products Description

The WAY-C Parts TVS Apache Accessories Tensioner Guide Chain Tensioner (M1080990/M1010250) is a high-quality replacement part designed to enhance the performance and longevity of your TVS Apache motorcycle. This tensioner guide chain plays a vital role in maintaining the correct tension in the engine's cam chain, ensuring smooth valve timing and efficient engine operation. By keeping the cam chain taut, it helps to reduce excessive wear, prevent chain slack, and maintain overall engine performance, preventing potential issues like misfires or timing inaccuracies. Crafted with precision and using high-strength materials, this tensioner guide chain is designed for durability and long-lasting performance. It is engineered to withstand the demanding conditions of everyday riding, including high engine speeds, temperature fluctuations, and vibrations, ensuring reliability and safety on the road.

Product Advantages:

Improved Engine Efficiency: By maintaining proper chain tension, this tensioner ensures optimal valve timing, which results in smoother power delivery, better fuel efficiency, and reduced engine stress.

Durability and Reliability: Made from premium materials, the guide chain tensioner is resistant to wear and tear, providing you with long-term, trouble-free service.

Easy Installation: With a design tailored to fit the TVS Apache, this part is straightforward to install, reducing downtime and helping you get back on the road quickly.

Enhanced Performance: The proper chain tension reduces the risk of chain jumping or misalignment, preventing engine damage and extending the life of critical components.

Perfect Fit for TVS Apache: Specifically designed for the TVS Apache model, the tensioner guide chain (M1080990/M1010250) guarantees a perfect fit and smooth integration into your motorcycle's engine.

Upgrade your TVS Apache's performance and ensure smoother, more reliable operation with the WAY-C Parts Tensioner Guide Chain Tensioner.

TVS APACHE

D113 NO 7 Datang Road
Zengcha Road Baiyun
District Guangzhou,China

TVS APACHE tensioner, in the context of a tricycle or trike, usually refers to a component that helps maintain proper tension on the drive chain. The drive chain is responsible for transferring power from the pedals to the rear wheels, propelling the

tricycle forward.

The tensioner is designed to keep the drive chain at the appropriate tension, which is necessary for smooth and efficient power transmission. It prevents the chain from becoming too loose or too tight during operation, which can lead to issues such as chain skipping, excessive wear, or even chain derailment.
