WAY-C Parts SUZUKI AX4 Tensioner Guide Chain Cam Chain 12811-28G50-000

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: WAY-C
- Model Number: AX4
- Minimum Order Quantity: 500 pieces
- Packaging Details: Box+CARTON
- Delivery Time: 30-45days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 10000 Piece/Pieces per Month

Product Specification

- Model: AX4
- Product Name: CAM CHAIN
- MOQ: 500PCS
- Material: Alloy
- Quality: High Quality
- Shipping: Sea Transport.Air Transport Air Express
- Port: NANSHA/HUANGPU, GUANGZHOU
- Parts NO: 14510KREG00/14611KREG00
- Highlight: SUZUKI AX4 Tensioner Guide Chain, Cam Chain Tensioner Guide Chain

Product Description

WAY-C Parts SUZUKI AX4 Tensioner Guide Chain Cam Chain 12811-28G50-000

Products Description

Ensure optimal engine performance and longevity with the WAY-C Parts SUZUKI AX4 Cam Chain Tensioner Guide Chain (12811-28G50-000), a precision-engineered component designed to maintain the integrity of your Suzuki motorcycle's timing system. This critical part plays a vital role in guiding and stabilizing the cam chain, ensuring smooth operation of the engine's valve train while minimizing friction and wear. Crafted to meet or exceed OEM specifications, it guarantees a perfect fit and reliable functionality for SUZUKI AX4 models and other compatible engines.

Product Features & Benefits:

Superior Durability: Constructed from high-grade, heat-resistant materials, this tensioner guide chain withstands extreme engine temperatures and prolonged stress. Its reinforced nylon or composite structure (varies by design) resists deformation, ensuring consistent performance even under high RPM conditions.

Precision Engineering: Designed to match Suzuki's exact OEM dimensions, this component ensures seamless integration with your engine's timing system. The precise alignment reduces chain slippage and prevents premature wear on the camshaft, crankshaft, and related parts.

Enhanced Engine Efficiency: By maintaining proper chain tension, this guide minimizes timing irregularities, reducing the risk of valve-piston collisions and costly engine damage. This translates to smoother acceleration, improved fuel efficiency, and quieter operation.

Vibration & Noise Reduction: The optimized design dampens chain oscillations, significantly lowering engine noise and vibration for a more comfortable riding experience.

Easy Installation: Pre-drilled holes and OEM-compatible mounting points allow for straightforward replacement, saving time for both professional mechanics and DIY enthusiasts.

Why Choose This Product?

Quality Assurance: Rigorously tested for durability and performance under real-world conditions.

Cost-Effective Maintenance: Prolongs the lifespan of your cam chain and timing system, reducing the frequency of replacements.

Wide Compatibility: Ideal for SUZUKI AX4 motorcycles and other models sharing the same engine architecture.

Included Components: Guide chain body, mounting hardware (if specified), and detailed installation guidelines.

Invest in the WAY-C Parts Cam Chain Tensioner Guide Chain to safeguard your engine's timing accuracy, prevent catastrophic failures, and enjoy a smoother, more reliable ride. Trusted by mechanics worldwide, this part delivers OEM-quality performance at a competitive price. Perfect for routine maintenance or engine rebuilds!

Note: Always verify compatibility with your specific motorcycle model and year before purchase.

Product name	Tensioner
Model	AX4
Materials	Plastic
Parts NO	12811-28G50-000
Packing	Box
Shipping	Sea/Air
Place of origin	Guangzhou,China

District Guangzhou, China

SUZUKI AX4(GD110) tensioner, in the context of a motorcycle, usually refers to a component that helps maintain proper tension on the drive chain. The drive chain is responsible for transferring power from the pedals to the rear wheels, propelling the motorcycle forward.

The tensioner is designed to keep the drive chain at the appropriate tension, which is necessary for smooth and efficient power transmission. It prevents the chain from becoming too loose or too tight during operation, which can lead to issues such as chain skipping, excessive wear, or even chain derailment.

Why Choose Us

OUR ADVANTAGES

GUANGZHOU WAY-C TRADING CO.,LTD.

Why choose us?

- ◆ 1. High quality: Using high quality material and establishing a strict quality control system, assigning specific persons in charge of each part of production, from raw material purchase to assembly.
- ◆ 2. Professional models for motorcycle parts and three wheeler parts, we have one group to focus on the new models parts, so welcome to OEM and ODM orders
- ◆ 3. Fast dispatch: Most of the products are in stock. Quality below 100pcs can be delivered within 15 days.
- ◆ 4. Small order accepted: Low MOQ accepted. 50pcs are available.
