District Guangzhou,China

#### Products Description

The K6060200/N4060080 TVS HLX125 Starter Motor Assembly is a high-quality, durable accessory designed for three-wheel vehicles like the TVS HLX125. This starter motor is responsible for initiating the engine's ignition process, ensuring reliable starting performance every time. It is built with precision and high-quality materials to meet OEM standards, providing long-lasting durability and efficiency. The assembly is carefully designed to handle the demands of frequent use, offering smooth functionality under various environmental conditions.

**Manufacturing Process:** The starter motor assembly undergoes a rigorous production process that involves advanced machining techniques and quality control measures. Each component is carefully manufactured using high-strength materials to ensure longevity and reliability. The motor is assembled with precision, ensuring proper fitment and smooth operation in the vehicle's starting system. Extensive testing is conducted to verify performance, including checking for smooth motor rotation and effective starting capability under different conditions.

This starter motor assembly is essential for maintaining the performance and functionality of the TVS HLX125, making it a vital component for both new and replacement applications in the vehicle's electrical system.
